The above referenced dog/puppy is being sold to the buyer(s) in good health and has been thoroughly examined by a licensed veterinarian with proper shots and worming. Seller certifies that said puppy is in good health to the best of Seller's knowledge. Buyer is required to take the puppy within 72 hours after taking possession to a veterinarian for

a health checkup. If Buyer fails to take puppy to the vet within 72 hours of possession, all health guarantees are void. If upon examination the veterinarian finds that said puppy is not in good health, and is unable to be medically treated, the Buyer must notify the Seller within 24 hours in writing. Buyer shall return the puppy to the Seller with all of the veterinarian documentation and registration paperwork at Buyer's expense. Seller shall replace said puppy with another puppy of equal value as soon as one is available. Buyer is responsible for all shipping costs. Seller has no obligation to reimburse Buyer for any costs incurred, i.e., medical, shipping, crate, etc. Seller does not guarantee against conditions brought on by stress or environmental changes that we can not control once the puppy leaves our care; therefore our guarantee does not cover; hypoglycemia, parasites, giardia, viral or bacterial infections after the puppy leaves our care. Buyer understands that any shots given before the vaccination schedule recommends voids the contract guarantees. Over vaccination can be very dangerous to young puppies. Please remember to take the vaccination schedule that you are provided to your vet, and do not allow them to give extra vaccinations that are not due! Buyer also understands that the best way to determine if additional shots are required is to do a blood titer on the puppy at the vet. This will show fully the puppy's resistance levels and allow vets to better determine if a booster shot is needed at all.

This puppy is guaranteed against genetic defects for 2 years after the date of sale of the puppy. If puppy is found to suffer from a genetic defect by a certified veterinarian, Buyer must notify Seller via certified mail, with written statement, and complete medical records from the veterinarian within 24 hours. Seller has the option to request a second vet opinion before replacement is offered. Buyer understands that the following genetic defects are not considered serious or life threatening and therefore are not covered: umbilical hernia, undescended testicle, low grade heart murmur, underbite, overbite, etc. Buyer understands that replacement option is only valid when health problems are attributed to a hereditary problem and not due to accident, contagious and/or other illness, or environmental conditions. Buyer has the option to return the defective puppy to the Seller, or to keep the puppy at Buyer's expense. If a replacement puppy is offered to the Buyer, from the first available litter containing a puppy of equal value, it will be offered regardless of Buyer keeping puppy or returning original puppy. Proof must be furnished to the Seller that the defective puppy has been altered against ever being bred, if it is to be kept by the Buyer, before a replacement puppy is offered. Under no circumstances will the purchase price of the defective puppy be returned. Seller has no obligation to reimburse Buyer for any costs incurred, i.e., medical, shipping, crate, etc. This is a replacement guarantee. No monies will be refunded. If a replacement puppy is offered to the Buyer, and Buyer refuses said replacement puppy, then the Buyer agrees that the terms of the replacement guarantee have been met, and no further replacement puppy or compensation will be offered to the Buyer by the Seller.
